international business aviation council

The **Aircrew Identification Card** is issued by the International Business Aviation Council (IBAC) to aircrew of business aircraft operators who are members of the **IBAC** Affiliated Associations listed above.

The **Aircrew Identification Card** is intended to identify the crew members of business aircraft, easing ramp access problems and assisting customs identification. It is based on the Standards and Recommended Practices (SARPS) of the International Civil Aviation Organization (ICAO) Annex 9 - *Facilitation*, as are the cards carried by aircrew members of the scheduled carriers.

The card is not intended to be used for any non-facilitation purpose such as obtaining discounts of any kind. However, from time to time we do hear from members who, upon presenting the **IBAC Aircrew Identification Card**, have been granted certain discounts and we do not object to this.

Shown here (right) is a sample of both sides of the **IBAC Aircrew Identification Card**. It has a distinctive red, blue and white design widely recognized by security officials and is made with a thermal transfer process, dye sublimated with the **IBAC** logo to prevent tampering or forgeries. We also provide the option for corporations to include their own registered logo on the card. If you wish to include your corporate logo it must be submitted to **IBAC** as an electronic file, either with this application form on a compact disc, or separately by email. Logos should be submitted as jpg files with a recommended resolution of 300 dpi.
